John Andrews

Natural Solutions for the Immune System

Friday 5th October 2012

Seminar Overview

The Seminar will present the following:

- An overview of the immune system in established and new findings
- We will examine the immune system from the perspective of the natural health practitioner and student
- The anatomy/physiology of the immune system will be covered including the cellular and cytokine (immune messengers) levels - natural killer cells, IL-4, neutrophils, etc will all be examined with clarity in descriptions, text and images
- During the seminar we will look at how we view the immune system as a “fluid brain”
- The interactions between the immune system and other systems of the body - such as the hormonal, nervous, gastrointestinal and the limbic systems
- Stress and the immune system - the PNEI network interactions
- Often overlooked areas will be covered such as the spleen, allergies, autoimmunity, thymus gland, internal immune system, the cell & immune system genetics
- Conditions triggered by immune dysfunction
- The causes of & maintenance for many immune-related conditions
- The interaction between certain neurotransmitters & the immune system
- The influence of hormones such as cortisol, progesterone, prolactin, melatonin on the immune system
- New Modern Iridology approaches & the immune system
- Nutritional Impact on the immune system and vice versa - new info on zinc, selenium etc
- Extensive natural health protocols for the immune system

Natural Protocols for the Immune System

- Modern Nutrition
- Modern homeopathy - homotoxicology for immunity
- New experiences in herbal medicine and the immune system
- Visual signs & clinical symptoms for the immune system - including skin, nails, tongue
- Which are the best tests for the immune system?
- Chronobiology & the immune system - what is the best time to enhance the activity of natural remedies for the immune system
- Emotional approaches (PNEI) & the immune system

Feedback from previous seminars with John:

- “Inspirational!”
- “Thanks so much for the seminar, I now understand a LOT more about the endocrine system and the many interactions and how they can be applied”
- “Thanks for answering my questions and taking time to explain all with great clarity”
- “Fantastic presentation, as ever, I didn’t realize there was so much to know about the liver”
- “Excellent seminar, I’m finding the new information to be invaluable”
- “The seminar was a great balance between being very entertaining, informative, professional and very, very holistic - many thanks”
- “I am emailing to say thanks for the seminar last Friday on the liver, I have been a therapist for over 30 years and I still learnt a huge amount of new material, including new signs, interactions and many new natural therapies not covered elsewhere to my knowledge”
