for booking and more  
information.**

- John Andrews is an internationally-acclaimed lecturer in modern iridology & natural medicine
- He is in private practice in England and has clinics in East Yorkshire & London , combining modern iridology with phytotherapy, PNEI, emotional approaches, nutrition & homotoxicology
- He is the author of seven iridology textbooks and has another six books pending publication for the iridology & natural health field in England, Brazil & India
- John is the recipient of six international excellence awards in recognition for his outstanding contributions to the field of iridology
- He lectures on a regular basis on five continents covering countries such as Denmark, Sweden, Ireland, UK, USA, Mexico, Brazil, South Africa, France, India, Italy, Greece & Belgium
- John is involved in numerous research projects in iridology examining many different areas
- He is considered a pioneer in modern iridology and has produced over ten new iris topographical charts and maps for the practitioner & student
- John is recognised for providing a new understanding of the iris and in particular the collarette, pupillary zone, inner pupillary border and other iris signs
- He has developed several new systems of analysis in modern iridology including emotional dynamics, the endocrine, immune & cellular systems
- The aim of John's work is always to inform, inspire and provide clarity in iridology for the practitioner and the patient - and also provide a scientific and professional platform for iridology
- This is John's second seminar for the Heilpraktikerskolen by popular request

**John Andrews Modern Iridology Seminar**  
**22 to 24 June 2012**  
**Heilpraktikerskolen Copenhagen**  
**Course Outline**

**Friday 22 June 2012 - 15.30 pm to 21.00 pm**

- Myths, Misconceptions & Truths in Iridology based on the findings in modern iridology, the modern understanding of embryology of the eye, genetics and biochemistry - does the iris change?, which markers are genetic and which we acquire?, importance of the pupil, etc.
- Latest Research Findings in Modern Iridology Research
- 51 New Iris & Inner Pupillary Border Signs in Modern Iridology

**Saturday 23 June 2012 - 9 am to 18.00 pm**

- Emotional & Psychological Aspects in Modern Iridology
- PNEI Dynamics in Natural Medicine & Iridology
- Emotional Dynamics of the Collarette
- Emotional Anatomy & the Iris
- Other emotional approaches in iridology involving the pupillary zone, pupil, time, genetics, emotional epigenetics, maternal & paternal influences
- Examining how to prioritize signs with these approaches
- Linking the physical with the emotional
- Global First! Neurotransmitter tendencies in modern iridology - we will for the first time in the world cover the often overlooked neurotransmitter tendencies that we all have & how to identify them in the iris - dopamine, serotonin, noradrenaline, acetylcholine, progesterone and many others will be covered

**Sunday 24 June 2012 - 9 am to 16.00 pm**

- Class Analysis - based on iris photos taken on Friday/Saturday morning we will have a class session applying what we covered on Friday/Saturday, in addition to the material on last year's seminar - John will cover as many irises as possible in the class to enable our understanding of the subjects
- Class Certification

**Additional Seminar Information**

- Each presentation will be lavishly illustrated with the latest high resolution iris and IPB images
- Each attendee will receive PDF versions for 90% of John's material covered on the screen
- A 10 minute "Questions & Answers" section is timetabled before each break
